REBELLIOUS INK · STUDIO APP

Welcome, [artist first name]

This is your guide to the Rebellious Ink studio app: how to get in, what to fill in first, and everything you can do in there day to day. It is a website, not an app store download, and it works on any phone, tablet or computer.

SIGN-IN PAGE	USERNAME	ONE-TIME PASSWORD
`rebelliousink.tattoo/login?staff=1`	`[username]`	`[one-time password]`

1. Getting in (first time)

1. On your phone, open **https://rebelliousink.tattoo/login?staff=1** in Safari (iPhone) or Chrome (Android).
2. Make sure the **Staff: username** tab is selected, not the client email-link tab.
3. Type the username and the one-time password exactly, all lower case with the dashes.
4. Press **Sign in**. You are taken straight to a page to choose your own password: at least 10 characters, not containing your username. Type it twice and save. The one-time password stops working after that.
5. Add the site to your home screen so it opens like an app. Safari: the Share button, then *Add to Home Screen*. Chrome: the three dots, then *Add to Home screen* or *Install app*.

Five wrong passwords in a row lock the account for 15 minutes. If you get stuck, message Nikki or Charlie rather than keep guessing: they can reset it and give you a new one-time password.

2. Fill these in first, so your page goes live

Where	What to do
Profile & rates	The name shown to clients, a short bio, your logo or portrait, Instagram, the styles you do and do not do, placements you will not tattoo, anything else you will not do (shown publicly so clients do not ask), and your rates: hourly from and to, day rate, minimum charge, and any fixed-price items. **Books open** is the switch that lets new enquiries reach you.
My hours	Your days and times in the studio, and whether each day takes online bookings, walk-ins or both. Clients can only book inside these hours, so keep them honest. Add one-off days (a flash day, a convention) and time off with a private reason.
My portfolio	Your nine photos are already up with captions. Add more: photo, caption, placement, style tags, healed or fresh, and whether it is your cover image. Tick **Permission to publish** only where the client has agreed, or it is your own design with nobody's skin in it; without the tick the photo stays on file but hidden. Set as cover, Hide from site, Publish and Remove sit under each photo.
My flash	Your own flash for the fixed-price wall: title, image, theme, colour, price, and whether an apprentice may tattoo it at the apprentice price.

3. Day to day

Today

Your inbox (enquiries waiting on you) and what is next in your diary. Start here each morning.

My enquiries

Only the enquiries assigned to you. Open one to read the brief and the client's reference images, reply in the thread (you can attach up to six images or a PDF), and add an *internal note* the client never sees. Send your quote from the same screen: basis (fixed price, hourly, day rate or per session), total, deposit, minutes, sessions, what is included, and how many days it is valid. The client accepts it online, picks a time from your hours and pays the deposit; the booking then appears in your diary. Aim to answer anything in your inbox within a day.

My diary

Your bookings by day. Green is confirmed, amber is waiting on a deposit. When a session is done, open the booking and press **Mark completed** with the final price; any studio credit the client holds is applied there.

My earnings

Deposits and balances recorded against your work. Under the 60/40 arrangement the balance on the day is best taken in cash: you keep your 60 per cent, put the studio's 40 per cent in one of the envelopes at the desk, write your name and the date on it and post it in the cash box before you leave. Where a client pays by card or bank transfer through the desk, your share is paid to you by the next working day.

Studio stock

What is in stock and what has been issued to you. Consumables and standard black ink are included in your arrangement; colour inks and specialist needles are your own. Anything bought from studio stock is settled within seven days.

Retail sales

If you sell aftercare or retail, record it here so stock comes down and the sale goes to the studio ledger. Retail is outside the split.

My promotions

A ribbon on your own card and page, for example a flash day or a discount, with start and end dates. Anything that uses the studio name or logo on social media is run past the studio manager first.

Chat

Studio chat, like WhatsApp. The Studio channel is everyone; you can also message Nikki, Charlie or anyone on the team directly. Keep client details in the enquiry thread, not in chat; the owners can read every channel.

4. Mentoring the apprentices

You have the Mentor role, so an **Apprentices** entry appears in your menu. It lists Sophie and Honey, and anyone added later, with their verified hours, core skills and what is waiting on you. Open an apprentice to:

- **Verify or reject hours** they have logged, with a note.
- **Review progression photos** and leave comments.

- **Move skills through the stages**: Start, Ready for review, Sign off, or Not yet. The programme is 118 skills in six stages, from prerequisites and hygiene through to supervised client work.
- See when an apprentice is ready for the final junior-artist sign-off. That last decision is made by Nikki or Charlie.

Apprentices can be booked for simple flash at the apprentice price, but only inside the hours their supervising artist is in the studio.

5. Good habits

- Reply to assigned enquiries within 24 hours; quotes expire, so send them promptly.
- Keep My hours accurate. If you are not in, clients cannot book you for that day.
- Mark every session completed on the day, with the real final price.
- Only publish photos you have permission for.
- Sign out on shared devices. Your login is yours alone.

6. Help

Anything about the app: message the desk in Chat or email **thedesk@rebelliousink.tattoo**. Anything about your arrangement: Nikki or Charlie. Your public page is **rebelliousink.tattoo/artists/[page-name]**; have a look once your profile is filled in.
